Dawgital Resume

IT & Cybersecurity Technician

College Park, MD

EXPERIENCE

Service Desk Technician — *University of Maryland, Engineering IT*

Feb 2026 - Present

- **Provided Tier 1 technical support** for Clark School of Engineering faculty, staff, and students, resolving hardware, software, and network connectivity issues
- **Utilize industry-standard ticketing systems** to document, track, and escalate technical requests, ensuring timely resolution and high user satisfaction
- **Apply A+ and Security+ knowledge** to diagnose hardware failures and ensure workstation security across the engineering labs and offices

IT Specialist Student — *Career and Technology Center*

Aug 2023 - May 2025

- **Network Administration:** Designed and configured local area networks, resolving connectivity issues and optimizing network performance for 20+ users
- **Cybersecurity Operations:** Implemented security protocols and conducted risk assessments, reducing potential vulnerabilities by identifying and mitigating security threats
- **System Virtualization:** Created and managed virtual machine environments using VMware and VirtualBox for cybersecurity testing and network simulation
- **Incident Response:** Developed and executed incident response procedures, documenting security events and implementing corrective measures
- **Technical Troubleshooting:** Diagnosed and resolved hardware/software issues, maintaining 95% system uptime in lab environments
- **Team Collaboration:** Led networking projects with peer teams, demonstrating project management and technical leadership skills
